

PROJECT SCOPE OF SERVICES

In general, the following are the major construction items for the Sharon Road Resurfacing and Turn lane at Mosteller Road Improvement project:

- Addition of a westbound right-turn lane on Sharon Road at Mosteller Road.
- Mill and overlay full-width pavement on Sharon Road between Mosteller Road to the west and the Sharon Creek/Railyard overpass to the east.
- Pavement/subgrade repair as necessary.
- Replacement of the signal at Sharon Road and Mosteller Road.
- Curb removal and replacement where indicated.
- Sidewalk and curb ramp removal and replacement where indicated.
- Addition of storm sewer to accommodate the right-turn lane widening.
- New pavement markings.

It is understood that the Sharon Road and Mosteller Road work limits are subject to modification, as needed, to accommodate changes in the above project.

Engineer's Estimated Opinion of Construction Cost is \$1,233,000.00
